School

September 4th, 2018

Dear Parents and/or Guardians:

As we begin another school year we are sending out information regarding live reporting. As a standard, we will no longer be sending paper report cards and progress reports home throughout the 2018/2019 school year. If you are unable to access this digital live reporting, please contact the school for support as we will be happy to discuss alternatives with you. We are currently exploring the possibility of a year end report card. The transition to live reporting will be consistent with current practices and expectations already established within our Middle Schools and High Schools in our school division. Teachers will comment on student progress and ensure that parents are well informed of their child's progress. To ensure that this happens, teachers will continue to do the following:

- Use timely and targeted assessment (marks and comments) based on objectives
- Continue to comment on growth as a learner throughout each term

Attached to this letter is a parent introduction to PowerSchool and all of the steps required to access your child's progress. If you do have any questions or need assistance with PowerSchool access please feel free to contact the school @ 403 347 5650.

Yours in Christ's Service,

Cathy Cameron
Principal
